New!

Contura 110, Contura i1 and Contura 130

Stoves that always find room

contura.eu

Contura 110

Easy to place, easy to love

The compact, free-standing Contura 110 and its cassette sibling Contura i1 can fit almost anywhere, in any home. But there is nothing small about the warmth and the impression they create in a room. The Contura 110 and Contura i1 are efficient heat sources for every kind of home, from houses to cottages. The compact format gives you almost limitless possibilities to create the fireplace that suits your home best.

New life to older fireplaces

Mantelpieces and fireplaces should be living parts of your home. But many homes have fireplaces that are no longer in use. Give it new life with Contura 110. Its compact, free-standing cast iron format fits easily in most mantelpieces, most often with little modification or construction work required. You will soon notice what was the intended purpose of your old fireplace – to spread warmth and joy to your home.

Contura 110 is available in black.

Contura i1, four-sided frame **A+**

Contura i1

A cassette that always finds room

The cast iron Contura i1 is available with 3-sided and 4-sided frames. It is compact and sturdy, with a clean, stylish design that feels at home in both modern and traditional homes. It is the perfect choice for everybody who wants the warm, cozy feeling and at the same time save space.

Upgrade your heating efficiency

Compared to an open fireplace, the Contura 110 and Contura i1 offer more efficient heating. An open fire usually draws more heat from a room than it adds. With Contura 110 and Contura i1 heat is emitted through the glass door. Your heat economy improves, with higher efficiency and more modern combustion technology.

Contura i1 is available in black.

Contura 130

Modern and practical

With a more modern aesthetic, Contura 130 shares the firebox of the Contura 110 and is designed for versatility. The matching log box enhances the practicality of this small but mighty stove. Contura 130 is an efficient heat source for every kind of home, from houses to cottages or even your conservatory. The compact format gives you almost limitless possibilities to create the fireplace that suits your home best.

Log storage by design

The log box has been designed specifically for Contura 130. If you want to lift the fire up from floor level, this is the perfect solution. Naturally, the log box can be used open to store logs, but it can also be used with a door to give it a more minimalistic look allowing you to neatly conceal its contents.

Contura 130 is available in black.

New!

For every home

Compact, robust, reliable. A timeless design that blends into and elevates the design of every home, from traditional to modern. Contura 110, Contura i1 and Contura 130 offer freestanding wood stoves as well as fireplace cassettes. Give new life to an existing, older fireplace, or create a completely new fireplace based on your wishes. The choice is yours.

Timeless design, modern engineering

Contura 110, Contura i1 and Contura 130 are designed and constructed using the latest stove technology from Contura. This makes it easy to light and maintain fires. With the damper on max setting it gives the fire an oxygen boost, making it possible to light the fire with the door closed.

With a combustion efficiency of over 80 %, and a 5 kW effect, you can be sure that Contura 110, Contura i1 and Contura 130 maximise the amount of heat energy you get from your firewood, while minimising particulate emissions.

Contura Values

Timeless design created for your lifestyle

Homes come in many styles and sizes. It's good to know that you'll always find something in our range with design and features that last a lifetime. Contura has a stove that suits your style, whoever you are.

The purest fire of world-class heating the natural way

You can light up your stove with a clear conscience, knowing that you are being kind to the environment and your wallet. Contura stoves are CO₂ neutral, using efficient combustion technology for excellent heating economy and minimal emissions.

The peace of mind that comes with Swedish quality

Contura stoves are Made in Sweden, in the most state-of-the-art stove manufacturing facilities in the world, with a focus on reduced environmental impact, respect for human rights, good business ethics and high quality standards at every stage of production.

Quality of life and comfort

Superior quality is a hallmark of Contura throughout its entire life, from production of a stove to its installation — and all the years it fills your home with light and heat. At Contura, we're proud of our tradition of innovative design and technology. The soul that we incorporate into all of our stoves stands for quality, assurance and home comfort.

Completely Swedish.

The design and development of Contura stoves takes place in Sweden, as does the assembly of all stove parts. The products are quality controlled before leaving the factory in Markaryd. This gives us full control over the quality in all stages of production. We take care to ensure that Contura products are suitable for the modern home and conditions. We are proud to mark our products Made in Sweden!

A Smålander that heats Europe

Contura stoves are made by NIBE in Markaryd, in Småland. Conserving resources has always been a matter of course in Småland and that is why our manufacturing is modern, lean and efficient. Quality permeates every level of production in our factory, which is the largest and most modern facility for the manufacture of stoves in Europe. Our products are sold throughout Europe and are appreciated for their timeless design, efficiency and high quality.
